- Engineering design breakthrough make FujiMAC blowers the best choice for energy conservation and economical operation.
- Quietest air diaphragm blower among the four U.S. market leading brands.
- FujiMAC blowers run seven to nine degrees cooler than leading market brands.
- The FujiMAC blower warranty is typically twice that of leading U.S. brands.

- Have been tested for endurance in high and low temperature extremes proving the durability of our diaphragm and other components.
- The diaphragm assemblies are easily replaced and replacement parts are readily available.

REBUILD KIT

Part Numbers:
T-10 (Rebuild Kit)
H508 (Foam Filter)

SELF-CLEANING PUMP VAULTS

STEPROS' patented self-cleaning pump vaults were designed with the maintenance entity in mind. Their two-chambered vaults house both pump and filter and are ideal for single family residential applications as well as for larger commercial flows. The filters remove solids larger than 1/8" from the effluent going to the pump. These vaults include a unique flushing feature that uses filtered effluent to remove any solids that have collected in the filter chamber. Instead of building up on the surface of the filter, solids are flushed back into the tank. This results in filters that need to be cleaned less often or not at all.

AVAILABLE IN 3 SIZES, 45", 54", AND 78"

1. PEX tubing redirects a small flow of effluent from the pump back to the filter chamber to clear any buildup on the filter.

2. Solids are expelled from the filter chamber through the 2" opening.

Part Numbers:
HFSCV45MF12 (45")
HFSCV54MF12 (54")
HFSCV78MF12 (78")

PUMP VAULT FILTER

The STEPROS' pump filter is designed to provide a steady flow of filtered effluent to the pump by removing solids larger than 1/8". This filter works with the brand's self-cleaning vault.

PUMP VAULT DISCHARGE ASSEMBLY

STEPROS pump discharge assemblies include all the necessary plumbing components to convey effluent from a pump to the collection system. It is designed with the maintenance utility in mind to minimize filter cleaning time and maximize functionality of the vault and pump. Custom discharge assemblies are available upon request.

Part Numbers:
DA05-SCV-10GPM (1" discharge assembly)
DA125-SCV-30GPM (1.25" discharge assembly)

PUMP VAULT PACKAGES

Part Numbers:
PV4510 (45" vault, 1" discharge assembly, 10GPM pump)
PV5410 (54" vault, 1" discharge assembly, 10GPM pump)
PV4530 (45" vault, 1.25" discharge assembly, 30GPM pump)
PV5430 (54" vault, 1.25" discharge assembly, 30GPM pump)

Optional panels to include in package:
50A006 (Simplex Demand Single-Phase Panel, 115/230 V with 3 15' mechanical floats)

More panel options available, see panels page

CUSTOM BASINS

← 3008-G24

← 3008-R12

← 3008-GR2

← 3008-R12B

Perfect for installing an effluent filter or pump outside the tank, or just as a drainage well. These watertight basins are made out of High Density Polyethylene so they won't breakdown in the harsh septic environment. Can be customized to any height in 6" increments, beginning with a 14" basin.

WASTEWATER ACCESSORIES

ORIFICE SHIELDS

Part Number	Manufacturer	Size	Box Qty
STF-106-0.75-1.00	SimTech/Anua	3/4" and 1"	100
STF-106-1.25-1.50	SimTech/Anua	1 1/4" and 1 1/2"	100
STF-106-2.00	SimTech/Anua	2"	100
3082	Polylok	1", 1 1/4", 1 1/2"	100
3082-2	Polylok	1", 1 1/2", 2"	100
3080	Polylok	Large orifice diffuser	200
3081	Polylok	Small orifice diffuser	200

EQUALIZERS AND ROTOFLOWS

The equalizer's adjustment knob moves the opening up or down in 1/16" increments; total movement is 7/8. Can be pushed into any 4" pipe, SCH 40, SDR 35, and thin wall. The Roto-Flow helps level the flow from the D-Box.

Part Numbers:
3049 (equalizer)
3050-3 (3" Roto-Flow)
3050-4 (4" Roto-Flow)

BUTYL JOINT SEALANTS

Polylok's Butyl Joint Sealant is designed to fully comply with current ASTM Standards and specifications as required by Federal, State, and Local agencies for use by the precast concrete industry and contractors.

Part Numbers:
3110-1 (1/2" x 21', 10 pcs.)
3110-2 (3/4" x 21', 9 pcs.)
3110-3 (1" x 21', 6 pcs.)

ACTIVATED CARBON COVERS

These odor eliminating covers or activated carbon vents can prevent odor problems by removing offensive odors as they leave the tank.

Part Numbers:
3007-ACC (18" flat Activated Carbon cover)
3009-ACC (20" flat Activated Carbon cover)
3008-ACC (24" flat Activated Carbon cover)

U.V. DISINFECTION UNIT

Your complete solution to meet even the most stringent environmental permit requirements, the PL-UV1 UV Disinfection Unit reduces bacteria levels from secondary effluent to achieve strict water quality standards. The reliability and performance of the PL-UV1 is unmatched for onsite and decentralized treatment applications. Every component of the compact unit is highly engineered and constructed to provide reliable disinfection and superior operational life.

Part Numbers:
AT-1500
AT-1500-BULB

PRO-GRADE ADHESIVE

The PL-E6100 is an industrial adhesive formulated to meet high-performance requirements. It permanently adheres to more surfaces than virtually any other adhesive, providing exceptional adhesion to wood, metal, glass fiberglass, ceramics, masonry, concrete, asphalt, leather, rubber, PVC, neoprene, vinyl and many plastics.

PN: PL-E6100

D-BOX SEALS

PN: 3001 (4")
PN: 3001-SN (4" w/ nuts)
PN: 3001-6 (6" w/ nuts)

These D-Box seals are the only true watertight seals on the market today. The 4" seal fits in both the 12" and 20" plastic D-Box. It accepts 2", 3" 4", and corrugated pipe. The 6" seal works in 20" D-Box.

PIPE SEALS

Poly - I   Poly - II

PN: 3000 (black)
PN: 3002 (red)
Box Qty: 240 black
Box Qty: 200 red

Eliminate grouting around the pipe. Quick and easy conversion to any existing form. These pipe seals can be used in any application.

MANDRELS

PN: 3004-OE (4")
PN: 3004-MAG (4")
PN: 3006-MAG (2")

Please note that the MAG at the end of part number classifies it as magnetic. The 3004-OE are made for Poly 4" open and closed end boot seals. The magnetic mandrels allow for an easy mount to your forms without any drilling. Can fit every size seal, contact us if you need mandrels for Poly I-VI seals.

COMPRESSION SEALS

PN: 3002-CS

The 4" compression seal ensures a watertight connection. It's easy to install and works on 4" SCH 40 and SDR 35 pipe.

EXTEND & LOKS

PN: 30131-TL (3")
PN: 30130-TL (4")
PN: 30132-TL (6")

Extend & Lok™ is a simple, easy to use solution that can extend the inlet or outlet pipe and make filter and/or baffle installation a snap. They are now available to fit 3", 4", & 6" pipe.

2" CLOSED END BOOT SEALS

PN: 3006-CE
Box Qty: 25

Made of durable EPDM rubber, this flexible pipe-to-concrete connector meets or exceeds all ASTM 1227 and 923 requirements as well as Grease Interceptor specifications. Using this boot ensures watertight connections.

POLY-III CLOSED END BOOT SEALS

PN: 3003-B

The first and only patented High Pressure Closed Ended Boot Seal on the market. The Poly III makes it easy to vacuum because there are no openings to plug. It accepts either 3" or 4" pipe. It also meets ASTM C-923 specifications and can fit in a 2 1/2" - 6" wall.

POLY-IV OPEN END BOOT SEALS

PN: 3003-OE
Box Qty: 25
PLT Qty: 450

This seal meets or exceeds all requirements of the following standards, codes, specifications, and/or test methods: ASTM C-1227, ASTM C-1644, ASTM C-923, ASTM C-1244, NPCA Best Practices, NOWRA Model Code.

POLY-IV CLOSED END BOOT SEALS

PN: 3003-CE
Box Qty: 25

This is the best seal on the market today for vacuum testing and water testing tanks. It is designed with a closed ended, so it is no longer necessary to plug seal holes before testing. And, it's easy to cut the seal at the installation site.

POLY-VI CLOSED END BOOT SEALS

PN: 3005-CE
Box Qty: 25

This is the only patented closed end seal on the market. The Poly-VI makes it easy to vacuum test because there are no openings to plug. It accepts either 4" or 6" pipe. It also meets ASTM C-923 specifications and can fit in a 3" - 6.5" wall.

RISER AND PIPE ADAPTERS

Part Number	Description
3009-AR30	24" Riser to Riser Adapter - 30" Outer Diameter
3009-RTR20	20" Riser to Riser Adapter for Polylok Risers
3009-ARF	20"/24" riser adapter ring for Roth/Fralo 30" tanks
3009-RTR24	24" riser to riser adapter for Polylok risers and new infiltrator tanks
3009-KIT	Adapter Ring Installation Kit (8 anchor bolts, 1 drill bit, foam gasket)

RIBBED PIPE ADAPTERS

Part Number	Description
3009-ARC	24" Adapter ring. Fits 24" ribbed pipe.
3007-ARC	18" Adapter ring. Fits 18" ribbed pipe.
3017-ARC	12" Adapter ring. Fits 12" ribbed pipe.

3017-ARC

3009-ARC

ADAPTER RINGS FOR POLYLOK RISERS

Part Number	Description
3009-AR	20-24" Adapter Ring, Fits 20" and 24" Polylok Risers
3017-AR12	12" Adapter Ring, fits 12" Polylok Risers

3009-AR

OTHER ADAPTERS

Polylok's 24" IPEX to 24 IPEX pipe adapter accepts 24" IPEX pipe. Our adapter rings are ideal for retrofitting existing septic tanks, and can be secured with ease. Our adapter rings is made of virgin high density polyethylene.

PN: PL-24IPA

This cast-in tank adapter ring is ideal for casting into concrete tanks to accept 24" IPEX pipe.

PN: PL-24IPA-CI

This tank adapter was designed to be bolted to tanks and provide a seamless connection to 24" IPEX pipe. The 24" IPEX bolt-down adapter ring will not only create a tight connection to 24" IPEX pipe but will also accept 24" corrugated pipe making it a versatile choice for retrofitting new and existing tanks. Our 24" IPEX bolt-down tank adapter ring is made of ABS plastic.

PN: PL-24IPA-BD

16

SAFETY SCREENS

The white screens can be utilized on PVC Ribbed Pipe, HDPE Corrugated, and Concrete Risers. These heavy-duty ABS screens act as a secondary layer of protection if the riser cover is unknowingly damaged, removed, or not put back on. The bright yellow screens are made to fit the upper most riser stacks of 24" Polylok risers. Both screens have been tested to 250 lbs.

Part Numbers:
3008-SS (Yellow 24" Polylok Riser Screen)
3008-SSPIPE (White Universal Kid Catcher)

FLOW CONTROLLERS

Ideal for alternating or dividing flows between two separate fields. Easily installs by attaching directly to SCH 40 or SDR 35. Unique channel split design enables an equal split of the waste stream. Also, the valve can be set for equal distribution (factory setting), or all distribution to the right or left.

Part Numbers:
3051
Box Qty: 5
3051-HK (handle)

CORD GROMMETS

Part Number	Description
Grom11-0	2" No Holes
Grom11-1	2" 1 Hole
Grom11-2	2" 2 Holes
Grom11-3	2" 3 Holes
Grom13-0	2.5" No Holes
Grom13-1	2.5" 1 Hole
Grom13-2	2.5" 2 Hole

GROMMETS

Part Number	Description
3007-GM.50	1/2" Grommet
3007-GM.75	3/4" Grommet
3007-GM1	1" Grommet
3007-GM125	1 1/4" Grommet
3007-GM150	1 1/2" Grommet
3007-GM2	2" Grommet
3007-GM3	3" Grommet
3007-GM435	4" Grommet, SDR 35
3007-GM440	4" Grommet SCHD40
3007-GM635	6" Grommet SDR35
3007-GM640	6" Grommet SCHD40

POLY-AIRS

Polylok's Poly-Air is an activated carbon vent that removes offensive odors, such as hydrogen sulfide, as they come out of the roof vent. The PC-PLVF-6 holds 5 lbs. of carbon.

Part Numbers:
PN: PCF-PLVF (3" and 4")
Box Qty: 10
PN: PCF-PLVF-6 (6")

PIPE REDUCERS

This pipe reducer allows you to connect 2" SCH 40 pipe to a 3" SCH 40 socket.

PN: PCF-PLVF-RD2

CATCH BASINS

● *Available in black*

48" TRENCH DRAIN

- All outlet ports accept 3" SCHD 40 pipe, 4" SDR 35 pipe & 4" SCHD 40 pipe
- Grates are reversible from a flat side to a 3/16" convex side
- Trench drain & grate come in 48" (4ft) sections that can be cut down to 12", 24", & 36"
- Two #8 screws are used to interlock ends together
- Outside holes accept #4 rebar for fast positioning
- ADA Compliant
- Grate is H-20 rated

Part Numbers:
PL-90860-G (Grey 4ft.Trench Drain, single)
Pallet: 77 trench drains, 308ft. total with prepaid freight
PL-90860-B (Black 4ft.Trench Drain, single)
Pallet: 77 trench drains, 308ft. total with prepaid freight

BLACK DUCTILE GRATE TRENCH DRAIN

- Comes with all stainless steel hardware
- Easily installed and removed with one bolt
- 47 sq. in. of open area
- Rust resistant
- Load Class C

- Application: Heavy Duty/Commercial
- Application proof load: 310 psi
- Typical application standard: A-A6005

Part Numbers:
PL-90860-CI (Black Ductile 4ft. Trench Drain, single)
Pallet: 49 trench drains, 196ft. total

48" SKINNY TRENCH DRAIN

- The new Polylok 48" skinny trench drain offers many of the same features that our regular ones does but in a slim, compact design
- ADA Compliant

Part Numbers:
PL-90861-G (Grey 4ft. Skinny Trench Drain, single)
Pallet: 110 trench drains, 440ft. total with prepaid freight
PL-90861-B (Black 4ft. Skinny Trench Drain, single)

RADON/SUMP DOME COVER

The Original Radon/Sump Dome, made of polyethylene structural foam, is designed to cover an existing basin, providing a new heavy duty cover to seal the basin against Radon Gas on odors; to provide adequate safety. There is no reason to dig up your basement or garage floor to remove the existing sump or sewage basin. Simply remove the old cover and install this cover over the opening, to create a new, completely sealed system. The inner diameter is 24" and the outer diameter is 28".

Part Numbers:
SMR16101
SMR16101-CV (with clear view)

SUMP BASIN COVERS
18.5" DIAMETER
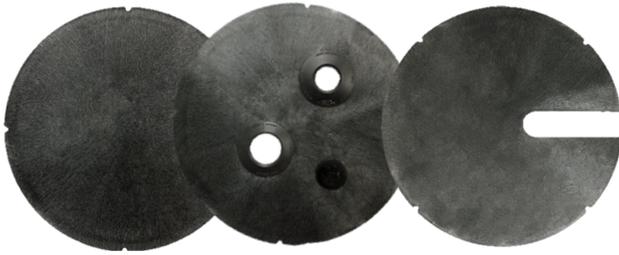

For use with SF15 basins

Part Numbers:
SF1850B (blank cover, no holes)
SF1850E (w/ discharge and vent openings)
SF1850S (slotted opening)

SEWAGE BASIN COVERS
20.5" DIAMETER

For use with SF20, SF22, and SF30PR basins

Part Numbers:
SF16101 (w/ discharge and vent openings)
SF16101-B (blank cover, no holes)
STL114 (steel, w/ discharge and vent openings)

20.5" DIAMETER

For use with SF20 and SF22 basins

Part Numbers:
SF22B (blank cover, no holes)
SF44 (w/ discharge and vent openings)
STL44 (steel, w/ discharge and vent openings)

24" DIAMETER

For use with any of the 24" basins

Part Numbers:
SF24B-BL (black solid cover, no holes)
SF24B-GR (green solid cover, no holes)
SF24S-BL (w/ discharge and vent openings)

RISER COVERS

Part Numbers:
SFRC-12G (12")
SFRC-18G (18")
SFRC-24G (24")
SFDC-24B (24" Drainage Cover)
SR36RL (36")

The riser covers and the drainage overs are constructed of injection molded polyethylene structural foam. They're designed to support up to 2,000 lbs. All come with replaceable water tight seals. Adapts up to 24" PVC, single and double wall polyethylene riser pipes. Stainless steel screws included. For custom logos on the riser covers, please contact us.

Components	Specifications	Picture

• SF15 - basin
  or
  SF15DR - drilled basin
 	
• SF1850B - blank cover
	Size: 18.5" x 17.5"
	Capacity: 15gal.	

• SF20 - basin • SF22B - blank cover	Size: 18" x 22" Capacity: 20gal.	
• SF22A - basin • SF22B - blank cover	Size: 18.5" x 24" Capacity: 22.5gal.	
• SF30PR - basin • SF16101 - HD Cover with 2" vent and discharge • SIH4 - 4" snap-in inlet hub	Size: 18" x 30" Capacity: 30gal.	
• SF24X36 - basin • SF24B-GR - blank cover • E4STND-5H - rubber inlet hub 4"	Size: 24" x 36" Capacity: 72gal.	
• SF30X36 - basin • JC30FB - fiberglass blank cover • E4STND-5H - rubber inlet hub 4"	Size: 30" x 36" Capacity: 110gal.	

UTILITY PUMP SYSTEM SUM250ALV
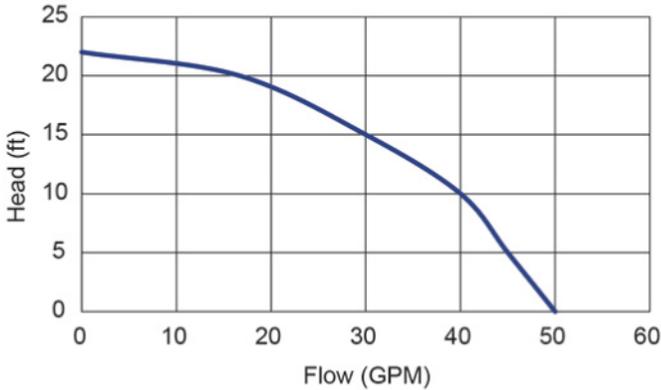

**Part Number: SUM250ALV-06-P**
120V, PSC motor type, S1 Continuous,
lip shaft seal,
upper and lower ball motor bearing,
1-1/2" NPT discharge, 10ft cord,
cast aluminum motor housing,
thermoplastic volute, vertical switch,
1/4" solids handling
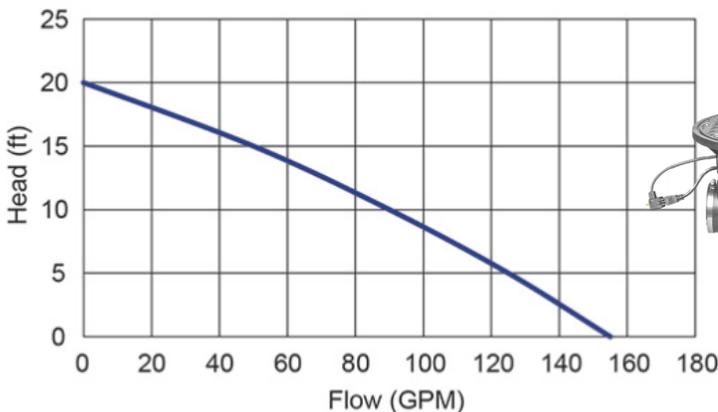

SUMP PUMP SYSTEM SUM330CIS
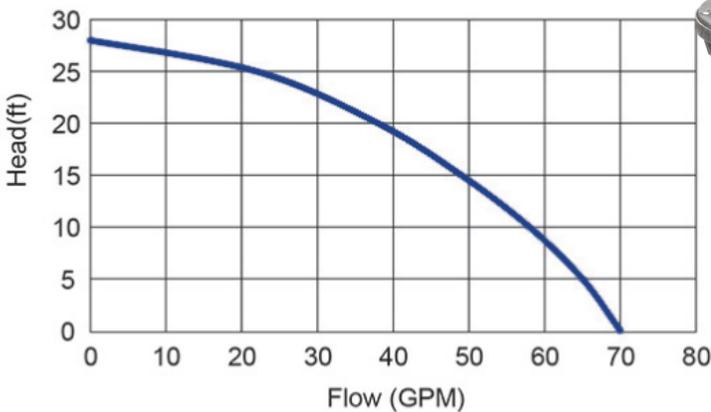

Part Number: SUM330CIS-22-16314-P
120V, PSC motor type, S1 Continuous,
mechanical shaft seal,
upper and lower ball motor bearing,
1-1/2" NPT discharge, 10ft cord, cast iron
motor housing, thermoplastic volute,
snap-action vertical switch,
1/2" solids handling

SEWAGE PUMP SYSTEM SEW500CIV

Part Number: SEW500CIV-45-24S-P
120V, PSC motor type, S1 Continuous,
mechanical shaft seal,
upper and lower ball motor bearing,
2" NPT discharge, 10ft cord,
cast iron motor housing and volute,
vertical switch, 2" solids handling

SEWAGE PUMP SYSTEM SEW501CIT

Part Number: SEW501CIT-45-24S-P
120V, PSC motor type, S1 Continuous,
mechanical shaft seal,
upper and lower ball motor bearing,
2" NPT discharge, 10ft cord,
cast iron motor housing and volute,
wide angle tethered switch,
2" solids handling

RAIL PACKAGES

Jackel Universal Guide Rail Packages make the installation and service of grinder, sewage and effluent pumps safer and easier. Simply slide pump assembly down guide rail system and connect plumbing and electrical service. The system is ready to go! Simplex, Duplex or Triplex configurations are available. The system is corrosion free with stainless steel and PVC components. All stainless steel piping on pump slide. All stainless steel hardware. Epoxy coated cast iron ball valve comes standard. Also, the check valve is on the pump slide for easy maintenance.

Standard Package includes:
- Fiberglass basin
- Basin cover
- Stainless steel guide rails
- Floats
- Control panel
- Junction box
- Inlet fittings
- Outlet fittings

Call for pricing

PUMP SCREENS

- 1/8" perforated polypropylene
- Built-in float tree bracket
- "J" hook wire organizer
- High strength construction
- Unit weighs less than 16 pounds
- Base accepts concrete for extra weight
- 2" raised bottom
- 13.5" inside diameter
- 15.5" outside diameter
- Over 850 square inches of open area
- Over 69,000 1/8" round holes

Part Numbers:
STF-1548P125 (15X48" pump screen)
STF-1554P125 (15X54" pump screen)
STF-110 (yellow 4" bristle filter)
STF-110-6W (white 6" bristle filter)

15X54" SCREEN

15X48" SCREEN

BRISTLE FILTERS
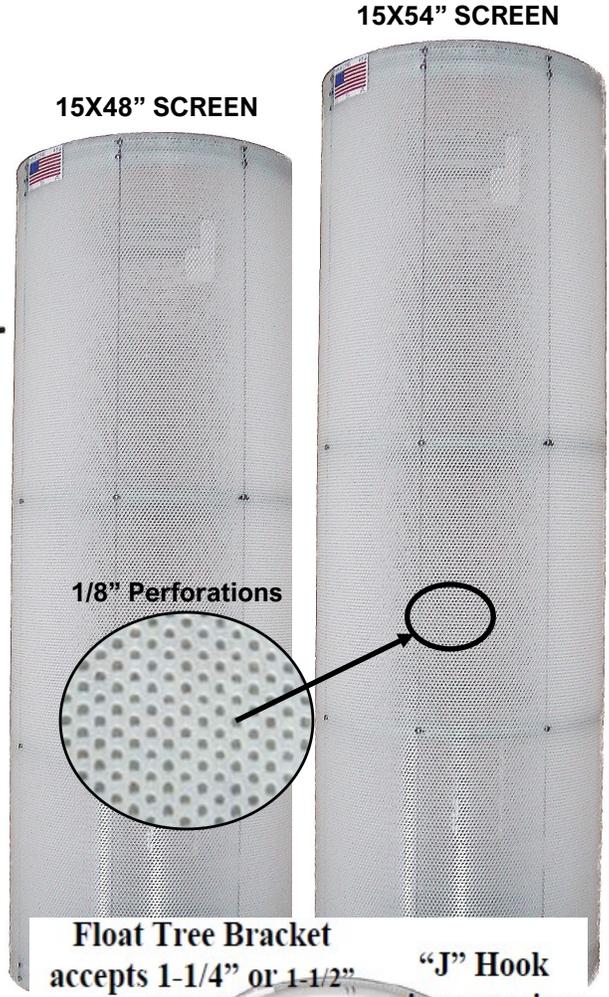

1/8" Perforations

Float Tree Bracket accepts 1-1/4" or 1-1/2" PVC pipe

3059-SC (2 1/2" - 3")	150/20

BEARING PADS

These bearing pads has a weight load rating of 5 tons per section. They can be made as small as 3" X 3" by separating from a 16" X 21" spacer. They minimize surface contact area with finished products. The material is made from HDPE in a natural color to avoid marking concrete.

Part Numbers:
3065 (40 units per case, 20 cases per pallet)
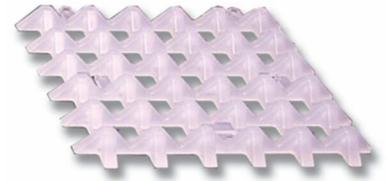

BEAM BOLSTERS

Part Number	Total ft/Case
3062-1 (1X44")	642ft.
3062-15 (1 1/2X44")	422ft.
3062-2 (2X44")	257ft.
3062-25 (2 1/2X44")	195ft.
3062-3 (3X44")	150ft.

DECORATIVE ROCKS

Part Number	Dimension	Weight
101-RB	31"X26"X21"	8lbs

3100	Alum. Form Hammer	5 lb.	1

The Roth MultiTank® is the first tank of its kind. It can be used for water cistern, pump, holding, rainwater, or septic tank. This is possible due to its special construction of an inner layer of FDA approved virgin HDPE, two inside layers of PE for improved stability, plus one outer layer of black and UV-stabilized PE. Not only is it special in terms of its construction, but it also has the best warranty the industry has to offer: lifetime corrosion protection and 5 years of labor insurance coverage (see warranty for more details).

- Versatile – can be used for water cistern, pump, holding, rainwater or septic tank

- Low-profile: Less digging, avoid high-water table

- Lightweight vs. concrete: Installers can handle without special equipment

- Heavyweight vs. poly: Strongest tank on the market

- 2 – 24" manways: Easy access for maintenance and service

- Dual-purpose: Use as a septic, pump, holding or rainwater collection tank

- Cylindrical shape: Absolutely no water required for backfill, saves time

- Threaded riser system: Easy installation, no screws or assembly

Virgin → Material
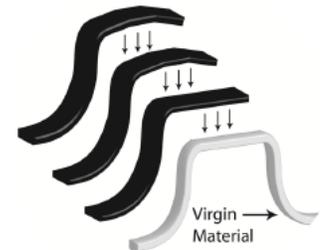

All RMT tank models are manufactured in compliance with the requirements of the current CSA and IAPMO standards.

RMT500-1500 tank models are manufactured with FDA resins listed with NSF and comply to the NSF 61 standard.

* Part # with a "P" includes plumbing

Our primary goal at RepCo Sales Agency is to represent our vendors to the best of our ability to the wholesale trade focusing on the onsite industries for the Pacific Northwest and create a profitable relationship for our manufacturers, wholesalers, and contractors. We inventory as much as possible since most of our manufacturers are on the east coast. Savings to our customers has been considerable having a warehouse in the Pacific Northwest. While we strive to have everything here, it doesn't always happen. We aim for accurate and prompt shipments with most orders shipped the same day as received. **Pricing is subject to stock on hand and changes are at the discretion of our manufacturers.** This pricing guide represents most of the products we normally stock. Thank you for allowing us to be of service to you!

Larry O'Connor

Larry O'Connor has been involved in the water and wastewater industry for several decades. He has worked for two of the leading pump manufacturers and has experience with industrial, municipal, water well, environmental, as well as wastewater products.

Lead Sales Agent   **Cell: (503) 720-7186**   **Larry@repcosalesagency.com**

James O'Connor

James is the warehouse manager responsible for all incoming and outgoing shipments as well as inside/outside sales and deliveries. James also works our tradeshows as long as they don't conflict with skiing or opening day baseball.

Operations Manager   **Cell: (503) 703-8180**   **James@repcosalesagency.com**
